

PRODUCT DATA SHEET

Z980UA FUEL WATER SEPARATOR KIT

4WD Fuel Filter Kit for flow rates up to 120 litres per hour

PRODUCT SNAPSHOT

UNIVERSAL FUEL ASSEMBLY

Interchangeable with:

P902976 Kit

Micron Rating:

10 micron (nominal)

Efficiency Rating:

99% @ 10 μ

Applications:

Ideal for 4WD CRD applications

Fuel water separator filters provide additional 'pre fuel filter' protection for standard fuel filters in diesel delivery systems, removing water and contaminants from the fuel.

Purpose

- Additional protection for diesel fuel delivery systems.
- Suitable for Diesel and Bio Diesel blends up to B20.
- Diesel fuel pump applications where fuel pump does not exceed 120 litres per hour.
- Acts as a pre filter for diesel fuel filtering water and particulates.
- For hard working 4WD's to protect common rail diesel (CRD) systems in particular, injectors becoming blocked.

Z980UA Kit Contents

Product Image	Qty	Description	Specifications
	1	Aluminium mounting plate	2 x 1/4" ports Working pressure: 100 psi
	1	Acrylic water drain bowl	Dimensions: OD 80mm, Length: 55mm
	2	Straight industrial hose tail	10 mm (3/8") x 1/4" NPT male straight fitting
	1	Right angle industrial hose tail	10 mm (3/8") x 1/4" NPT male right angle fitting
	2	Z980	OD: 77mm Length: 141mm 10 micron (nominal) 99% Efficiency

Note: kit items (excluding filters) are not available for separate sale.
